

PAIN MANAGEMENT IN DENTISTRY

BE PART OF THE OPIOID SOLUTION

Free Online Training for Dental Pain Management and Opioid Prescribing

3 one-hour training modules are being offered that meet Michigan's licensure requirement of board approved continuing education for pain and symptom management.

Three credits of engaging materials:

Module 1: The Role of Acute Care Prescribing in Opioid Epidemic

1 continuing education credit

- Reduce the number of opioids prescribed post-surgery in accordance with current guidelines
- Implement best practices to increase safe disposal of unused opioids by patients

Module 2: The Role of Dentists in the Opioid Crisis

1 continuing education credit

- Understand and identify how their own practice both contributes to and can reduce the challenge of opioid over prescription
- List alternative pain management strategies to reduce the use of opioids
- Reduce the use of opioids for pain management using best practice guidelines

Module 3: Pain Management With Over-the-Counter (OTC) Analgesics

1 continuing education credit

- Determine the appropriate use of acetaminophen (APAP) when treating pain
- Determine the appropriate use of non-steroidal anti-inflammatory drugs (NSAIDS) when treating pain
- Design an appropriate pain management strategy using OTC medications

Are you eligible to participate?

- Physician or Dental Provider
- Active DEA license
