

# Changing the way we care for pain

# OPEN

Evidence. Resources. Engagement.

## IMPACT REPORT 2023

OPEN was founded in 2016 to help change the trajectory of the opioid epidemic. We work to find evidence-based solutions by bringing together the best minds and deeply engaging with the medical establishment, community workers, patients, and the greater public.

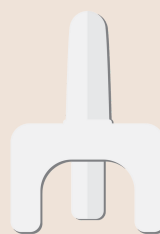

**70+** evidence-based  
**OPIOID PRESCRIBING  
RECOMMENDATIONS**  
for adult and pediatric surgeries
