

Myth or Fact?

OPEN
Overdose Prevention Engagement Network

- Naloxone will harm someone if they are NOT suffering from an opioid overdose → **MYTH!**
- You will get in trouble for having drugs when giving someone Naloxone → **MYTH!**

NALOXONE Saves Lives

How to use
naloxone:

Step 1: Peel
from
packaging

Step 2:
Place the
nozzle in
the nose

Step 3:
Push the
plunger to
spray

FACT: Naloxone is a safe and effective medication that can temporarily reverse the effects of an opioid overdose. The Good Samaritan Law protects you when you respond to a suspected overdose with naloxone in Michigan.
